

A man and a woman with long, light-colored braids are standing in a dark, neon-lit street at night. The man is on the left, wearing a black leather jacket, looking slightly to the right. The woman is on the right, also wearing a black leather jacket, looking forward. The background features a brick wall with a red neon sign that says "KIDNEXION" and blue neon lights. A car is partially visible on the right.

BEAR CUBZ

MOON RACER

Strategic Label Partnership Proposal

Los Angeles, CA • cuzzi-myth.github.io/bearcubz/

THE PROJECT

Music is the signal. The universe is expanding.

BEAR CUBZ is an independent artist and creative director building Moon Racer — a cinematic electronic music universe connecting recorded music, visual storytelling, live experiences, merchandise and interactive digital world-building.

Rather than treating each release as an isolated single, Moon Racer is an expandable creative world in which music is the central signal connecting characters, locations and stories — designed to grow simultaneously as a recording career and as original entertainment IP.

FLAGSHIP RELEASE

Moon Racer | Rise of the Moon Racers

THE MUSIC

A sound built to live everywhere

Moon Racer combines electronic production, alternative influences, cinematic atmosphere, futuristic sound design and emotionally driven songwriting. The goal isn't to imitate an existing genre — it's a recognizable BEΛR CUBZ sonic identity capable of existing across albums, live environments, visual media, gaming, fashion and sync.

Story Tied to the Album

THE WORLD

An original sci-fi universe

Moon Racer extends beyond the recordings into an original universe with its own characters, factions, mythology and evolving narrative — set inside the Great Freeze, a cyberpunk dystopia ruled by the House of Racer faction.

● MOON RACER

The signal at the center of the universe — the artist's world-building alter ego and namesake of the flagship album.

● RACER GIRL

Co-lead of the House of Racer, driving the narrative alongside Moon Racer through the Great Freeze.

● ROMEO

The third core character rounding out the House of Racer's central cast.

Early traction, real momentum

BEΛR CUBZ has independently developed Moon Racer across music, visual identity, physical merchandise and live experience. This is early-stage, cross-platform traction since the album's release — the foundation a strategic partner would help scale, not invent.

Transparent by design

BEΛR CUBZ uses emerging creative technology, including generative tools, as part of the Moon Racer production ecosystem — documented transparently on a track-by-track basis: tools used, human creative contribution, subsequent production and applicable commercial rights.

Authorship stays human

BEΛR CUBZ remains creative director for concept, world, direction and every final creative decision.

No unauthorized impersonation

The project's identity is not built on unauthorized artist impersonation.

Full chain-of-title ready

Per-track AI provenance — platform, model, prompt records, edits, rights — documented and available on request.

THE OPPORTUNITY

Where seven worlds intersect

We believe Moon Racer has the potential to occupy the intersection of music, science fiction, visual culture, technology, fashion, live experience and gaming — building a recognizable artist universe capable of generating long-term audience engagement beyond individual release cycles.

What acceleration looks like

RELEASE & MARKETING

- Global release strategy
- Marketing investment
- Digital advertising
- Publicity
- Radio where appropriate

AUDIENCE & PARTNERSHIPS

- DSP relationships & playlist strategy
- Audience development
- Brand relationships
- Strategic collaborations
- Sync licensing

GROWTH & INFRASTRUCTURE

- Live opportunities & event support
- Music-video & visual-content investment
- Select merchandise initiatives
- International expansion
- Industry introductions
- Long-term artist development

What we're protecting

We're open to discussing multiple structures — licensing, artist-services or recording agreements. A successful partnership should preserve the distinctive creative identity that makes Moon Racer valuable.

- 1 Creative direction remains with BEΛR CUBZ.
- 2 The Moon Racer universe & non-music IP remain artist-controlled unless separately negotiated.
- 3 AI and production provenance are handled transparently.
- 4 Investment is directed toward measurable artist and audience growth.
- 5 Both parties participate meaningfully in the upside they help create.

WHY NOW

BEΛR CUBZ created the signal. We're looking for the right partner to amplify it.

The infrastructure of Moon Racer is already being constructed independently. The right partner would not be asked to invent the project — they'd be joining an existing creative universe at the stage where professional distribution, marketing capital, industry relationships and global infrastructure can materially accelerate its growth.
